(Liquidity 4%, Marketing 5%)

Liquidity pool locked for 1 year

The development team contract has been abandoned
across the board

Has passed SP agency audit and KYC

Contract:

0x825791Bc83A377Ba3931E8a56504a1EACAAE0f76

Social APP

This is a social type metaverse product

First, you can design your image here

You can choose: gender, skin color, hairstyle, job, facial expression, clothing, age, etc.

Your cast image will automatically generate an image NFT, and this image NFT will be unique. and can never be changed.

Second you can set your status in the metaverse world:

You can choose: working, eating, listening to music, going to the toilet, lying down, watching TV, etc.

The most important part is also the best part of this app. We embed Google Maps, which means that you can use it to show where you are in your life, and where you go, your location in MetaWorld will go to the corresponding place.

NFT

There are many types of NFTs in MetaWorld
Including: clothing, buildings, land, images, cars, etc.
This time we focus on MetaHouseNFT

MetaHouse NFT

Metaverse House NFT is the most important part of the MetaWorld ecosystem

When the app is connected to Google Maps, you can see many different buildings in the app that exist in real life. For example: if you open the app and walk to a McDonald's in the display life, at this time, the metaverse characters in your app will also walk to the McDonald's

And this McDonald's building is an NFT in a metaverse
You can buy this building, which means you buy a McDonald's in the metaverse.

When you own the store, you will be rewarded with a steady stream of tokens every day.
The more expensive the NFT, the more token rewards you will get.

Another factor that affects the reward is the "popularity" of the store. The higher the "popularity", the more
The reward multiplier obtained will also be higher.

Popularity of the building

Every building has a popularity value

The higher the popularity value, the higher the multiplier of the token reward obtained

How to get popularity points?

You can let your friends, next to the building,

In-app click: "arrival" button

The more characters clicked on this building, the higher the reward multiplier will be.

Daily Popularity PK Competition

You can apply for PK with buildings within 500M of your range

If your popularity is higher than the opponent's popularity that day, you will get double reward

WorkBook

- minting tokens
- Complete the pre-sale

- KYC/Audit
- Big marketing

- CMC/CG
- Exchange

- more

- Publish APP
- Publish NFT

- 10,000 social users
- Login to major exchanges
